# EAL Co-ordinator Training: Embedding a Whole School Approach to Improving Outcomes for Learners with EAL

This practical course, with newly developed content, aims to enhance the way EAL co-ordinators work with teachers and teaching assistants in primary and secondary settings, enabling them to plan and prioritise effective provision for EAL learners. It will introduce guidance, strategies and resources to build upon existing skills, and consider ways in which EAL co-ordinators can help colleagues to embed a whole school approach to support EAL learners. Participants will develop an understanding of how best to meet the needs of all EAL learners through effective assessment, planning and provision that integrates a targeted language focus in all classrooms. Practitioners will work together in the morning and then split into primary and secondary phases for the afternoon session.

This course covers:

- Key roles and responsibilities of the EAL co-ordinator
- Strategies and resources for assessing strengths and areas for development in EAL provision at a whole school level
- Strategies and resources for inductions, planning, assessment and in-class language support for learners with EAL

This course is suitable for:

- EAL co-ordinators
- Heads of department
- Other school staff with responsibility for EAL
